

My Very Own

Dr. Seuss

Activity Book

RANDOM HOUSE
CHILDREN'S BOOKS

A Page for Parents

These activities are perfect for kindergarten and first-grade children. They are inspired by the many wonderful writings and drawings of Dr. Seuss. There are funny words to read, easy activities to do, new things to learn, and math problems to solve. With this activity book, your child can have “*fun that is funny*” while learning reading and math readiness skills.

How can you and your child get the MOST FUN out of this book?

- Pick a comfortable spot to work in—one with plenty of light.
- Choose a time when your child is able to concentrate.
- Gather crayons, markers or colored pencils and get your child ready to fill in the spaces on each page.
- Give lots of encouragement!
- Read the words aloud to your child. Listen to them. Point to the pictures. Laugh at them. Dr. Seuss’s words and pictures are fun, and fun is good.
- Words and numbers are here, there, and everywhere! When you’re driving in your car with your child along a familiar route, read the signs aloud. Maybe next time your child will read the signs to you.
- And remember, children develop at different paces. These activities were created for kindergarten and first-grade children, but this is only a guide. Children may enjoy doing the activities in this book even if they are younger or older than those grade levels.
