Welcome Back Panthers,

As we embark on our 2020 Fall athletic season, the Athletic Department will look to begin practices for Football on Saturday, September 12, 2020, along with the rest of our athletic programs beginning on Monday, September 14, 2020. We will continue to follow all guidelines and recommendations set forth by the CDC, NJDOH, and the NJSIAA as we progress throughout the reopening of our Fall season. Moreover, in lieu of our current status with the pandemic, we are allowing room for flexibility in regard to transportation to home games and practices, which will allow our school district to safely transport our student-athletes under the guidelines set forth by the CDC. Students will now have the option of arriving to practices and home games on their own, based on location. Also, there will be a bus on site (Perth Amboy High School Main Campus) for those students who need transportation to our practice/game sites throughout the Perth Amboy community (Perth Amboy Youth Complex, Washington Park, and Dalton Field). Upon arrival to our practice and game sites, all students and staff members will be required to partake in a screening process which is guided by the NJSIAA and conducted by our athletic staff. Once again, I look forward to another successful and safe Fall athletic season and we will continue to keep everyone updated as we move forward through our athletic website.

Have a Panther Day,

Nephtaly Cardona

Athletic Director
