Re: **Physical Examinations (Grades 3, 6, 9)**

All students who will be entering grades 3, 6, 9 are strongly recommended by state school health guidelines to undergo a physical examination.

It is imperative students obtain a medical examination at least once during each development stage, at early childhood, pre-adolescence and adolescence. You can take your child to their “medical home” i.e., pediatrician, clinic, health center for the physical examination. Please have them fill out the attached form and return it to the school nurse at your earliest convenience.

Thank you for your cooperation.
