

June 2021

Dear Parents, Guardians, and Students,

Perth Amboy Public Schools is committed to promoting Mathematics and Literacy throughout the summer months in order to enhance each student's mathematical and reading proficiencies to further develop their mathematical understanding and reading fluency. Although your child has acquired new skills during this school year, he/she may lose ground if a review of the grade level concepts and skills does not continue over the summer!

This summer, your child is being asked to complete a math summer packet online similar to remote learning and a summer reading assignment. Completion of the summer math packet and summer reading assignments will result in extra credit points to begin the year! The summer math packet and summer reading assignment will be due by **September 15, 2021**. To access the summer math packet, please click on the appropriate grade level link below.

Parents are strongly encouraged to work with their children on these packets. When parents stay closely involved in their child's academic life, positive results can be sure to follow. Let's work together – as parent, teacher, and student – to ensure a productive beginning to a successful school year this fall.

**Summer Math Packets Links:**
